The rates of pay and hours of work in the tables below have been taken from awards, determinations and collective agreements of industrial tribunals and in some cases from unregistered collective agreements operative at 30 June 1977. The occupations shown are broadly representative of the occupations in the various industries in each State, but they are not necessarily included in the Wage Rates Indexes. Rates shown are generally those payable in the capital cities and this has been indicated by showing the names of the capital cities at the head of the columns. Where rates other than those for capital cities have been quoted, column headings have been changed to show the names of the several States.

- 2. The rates of pay quoted are those which had been notified by 31 October 1977 and may be subject to revision due to retrospective adjustments to awards, etc.
- 3. For some occupations more than one wage rate is quoted, indicating that there are different classes or grades of work or that different rates are payable according to locality. Where only two rates are specified, they are shown in the form \$141.00 & \$144.40. In other cases the rates are shown in the form \$138.60 \$150.80, indicating that, in addition to the two rates specified, certain intermediate rates are also prescribed.
- 4. The weekly rates shown are generally those prescribed

in awards, etc. for a full week's work (excluding overtime). Where it is not possible to quote such rates, hourly or daily rates are shown. Prescribed rates of minimum wage for adult males and adult females are used where applicable. For most occupations the hours constituting a full week's work (excluding overtime) are 40, where the weekly hours prescribed differ from 40 they are shown in footnotes to the tables.

- 5. The wage rates and hours of work shown in these tables have been compiled for statistical purposes only, and any inquiries regarding specific rates prescribed for particular occupations should be addressed to the appropriate industrial tribunal. There are approximately six months between successive issues of this publication and users requiring information between issues should ring Canberra 526561.
- 6. Similar information for the principal occupations is published in *Labour Statistics* (6101.0).
- 7. Users may also wish to refer to two related monthly publications, Wage Rates (6312.0) and Wage Rates Indexes (Preliminary) (6311.0) which contain details of wage rate indexes for adult males and adult females.
- 8. All publications produced by the ABS are listed in Catalogue of Publications 1977 (1101.0) which is available free of charge from any ABS office.
